

Production and Warehouse Manager

Retained Search for a UK Medical Device Manufacturer

Production and Warehouse Manager

Challenge

A UK medical device manufacturer created a new role to run both its production and warehousing sites and teams. Previous recruiters had put forward only a handful of candidates.

Lack of Candidates

Few people combine production and warehouse management, so we searched the whole market rather than relying on active job seekers.

Life Sciences Experience

Production and warehousing experience gained within the life sciences sector was essential.

Solution

We mapped the market and screened against the brief to build a targeted shortlist ready for interview.

Results

- ☒ 116 Suitable Candidates Identified
- ☒ 6 Candidates Shortlisted
- ☒ 6 Candidates First Stage Interviewed
- ☒ 3 Candidates to Final Round Interview
- ☒ 1 Successful Appointment

Outcome

Offer accepted within seven weeks. The successful candidate had all the skills and sector experience the role needed, which let the client start a key change management project sooner than planned.

Team Expertise

Tracey Harris
Director

Tracey Harris founded Harris Lord in 1997 and brings over 30 years' experience in search and recruitment.

She leads every client relationship personally, from the first conversation through to appointment, and works with you to build a clear hiring strategy around your business goals.

Her approach is honest and consultative. She takes the time to understand what you want, what the business needs and where the risks sit, then gives straightforward advice on the right hiring route, whether that is a retained search, an exclusive project or a different solution altogether.
